

INTERNATIONAL MONTESSORI ACADEMY

Mobile Modular created additional classroom space for the International Montessori Academy in a timely manner to support their expanding enrollment.

THE CHALLENGE

IMA already had students signed up to enter the new school in May of 2018. With only 90 days to add additional space by the start of school, a modular solution was the clear choice.

THE SOLUTION

IMA already had students signed up to enter the new school in May of 2018. With only 90 days to add additional space by the start of school, a modular solution was the clear choice. Mobile Modular saw this project through from start to finish, beginning with the design of the building up to installation on site. Mobile Modular provided the required facility with time to spare, ensuring there were no disruptions to the school's students or faculty.

Customer Name: International Montessori Academy

Project Location: Atlanta, GA

Building Type(s): Modular Classrooms

Module Count: 3

Total Sq. Ft.: 2,160 sq. ft.
