

# KARMANOS CANCER INSTITUTE

Mobile Modular provided over 5,600 square feet of exam rooms with physical and general offices within the budget and time constraints.

## THE CHALLENGE

The Karmanos Cancer Institute, located in Farmington Hills, found itself facing a critical situation while substantial construction work was being done to expand their already existing healthcare facility. In response to this pressing need, the institute sought out a temporary solution to ensure uninterrupted and high-quality patient care during the renovation and construction phase.

## THE SOLUTION

Mobile Modular was selected as the modular builder to provide over 5,600 square feet of exam rooms with physical and general offices to not disrupt patient flow and care. Mobile Modular utilized an in-fleet solution with the budget and tight time constraints as required by the customer
