

# LARGE SCIENCE ORGANIZATION QUICKLY ADDS UNIQUE OFFICE SPACE

Mobile Modular delivers innovative, flexible modular space for a fast-tracked federal government project.

## THE CHALLENGE

Greenbelt, MD – A large science organization needed extra office space for a new program. The Mid-Atlantic team of Mobile Modular has designed an eight-floor state-of-the-art modular building system with "clear span" beams that fulfill the specific workspace requirements of the team consisting of 30 scientists and administrative personnel. The new building was installed in a timely and efficient manner, and it exceeded all of their expectations.

## THE SOLUTION

A science organization's laboratory received a new modular space to support a new initiative. Mobile Modular's Mid-Atlantic team designed an eight-floor state-of-the-art modular building system with "clear span" beams to meet the specific workspace requirements of the team of 30 scientists and administrative personnel. The new building was installed in a timely and efficient manner, and exceeded all of their expectations.

**Size:** 5,760 sq. ft.

**Time:** 21 Days

**Building Use:** Offices
