Mobile Modular Gets Standing Ovation From Super Bowl Site Planners

THE CHALLENGE

Before the 2023's 57th Super Bowl, 63 modular buildings and 15 storage containers were delivered by Mobilw Modular from Phoenix to Glendale. It was a challenging task coordinating the hundreds of trucks transporting equipment to the stadium. Despite the event organizers requesting a 4-week installation timeframe, Mobile Modular delivered the entire fleet in a record-breaking 8 days! The planning director working with Mobile Modular received a spontaneous shout out and standing ovation from event planners for their extraordinary effort.

THE SOLUTION

- 61 single-wide (12 x 56) moduls for offices, broadcast compound, halftime entertainmen staging area
- 2 double-wide (24 x 60) moduls for offices
- 15 portable storage containers
