

# PARADISE LOST: REBUILDING A SCHOOL AND A COMMUNITY

Mobile Modular provides immediate classroom space for Paradise, CA elementary school

## THE CHALLENGE

In August 2019, California witnessed its most destructive wildfire in history, which destroyed Achieve Charter School in Paradise. In November, Mobile Modular was contacted by Bonnie Benson and Margaret Fortune to find temporary portable classrooms for the charter schools in Paradise. Mobile Modular provided a quote and set a goal to put together a modular school building by January 7. They brought in eight temporary classrooms in December, which allowed the kids and staff to return to school and work on a larger campus.

## THE SOLUTION

Mobile Modular designed and installed a modular campus in less than seven weeks, providing a safe and secure learning environment for students, teachers, and staff during the 2009-2010 school year. The campus included a creative combination of modular buildings strategically placed on limited land available in an inner-city setting. It featured state-of-the-art, eco-friendly prefabricated classroom complexes and additional administrative and multi-use prefabricated buildings.
