

# HEALTHNET TEMPERATURE CHECK STATION

Mobile Modular provided HealthNet with a climate-controlled modular medical station for COVID-19 temperature checking.

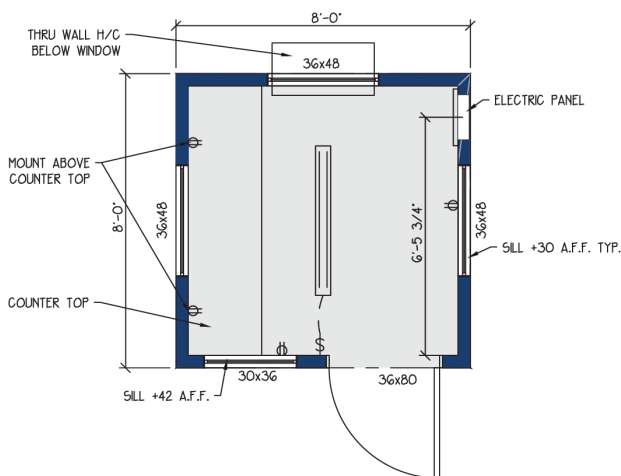

## THE CHALLENGE

HealthNet of Indianapolis, Indiana, needed a Single Point Temperature Check Station for COVID-19 testing. They wanted to purchase a building that was climate-controlled so that they could do testing year-round.

## THE SOLUTION

After reviewing several size options, HealthNet decided on an 8' x 8' with a built-in workspace counter-top. Our team was given an exact location to place the building in their parking area and the building was delivered within seven days

**Customer Name:** HealthNet

**Project Location:** Indianapolis, IN

**Building Type(s):** Specialty

**Days to Complete:** 7

**Total Sq. Ft:** 64 sq. ft.
