

VISION METALS OFFICE BUILDING

Mobile Modular provided Vision Metals with a double-wide modular office building to replace an outdated building.

THE CHALLENGE

Vision Metals reached out to Mobile Modular to provide them with a new office building to replace an existing outdated building. Mobile Modular was the clear building solution to meet their schedule and requirements. Mobile Modular was able to provide a new double-wide office building in a timely manner that fit within the customer's time and budget.

THE SOLUTION

The new project was built on the same site as the previous building, fitting between a storage yard and a larger indoor facility. The building was finished with wooden deck steps and ramps for access.

Customer Name: Vision Metals

Project Location: Tucker, GA

Building Type(s): Modular Office

Module Count: 2

Total Sq. Ft.: 1,680 sq. ft.
