

WASTE MANAGEMENT SCALE HOUSE

Mobile Modular designed, built, delivered, and installed a new scale house for Waste Management in two months' time.

THE CHALLENGE

Waste Management in Logansport, IN was in need of a new scale house. They had been renting a mobile office that was too small for their needs and wanted to expand their space. Due to a new scale built at that location, they wanted to purchase the facility to be built on a permanent foundation.

THE SOLUTION

This facility is equipped with a scale house room, driver's room, office, unisex restroom, supply closet, large conference room, and kitchenette. Modular construction proved to be an effective solution because it was designed, built, delivered, and installed in approximately 2 months.
